HOW TO GROW ARBUTUS.

Dear Members of the Social Corner: Dear Members of the Social Corner:
Here I come once more with the same subject "flowers."

Watching the rain brought to mind the saying "April showers bring forth May flowers," and that made me think of tralling arbutus and wish I knew where there was some; and also be able to go after it. It is years since I've seen any of the beautles that set me thinking. Perhaps some flower lover would like to try my way of fixing it.

When arbutis is in bud in the spring I pick the buds (if only two inches long they will do) only I take a basket, a tiny pair of scissors and start for the woods and hunt until I find some nice moss (the leafy kind is best), then I gather some sprays of buds, pick off all leaves but a couple near the buds. I fill a shallow dish (a soup plate will do if nothing better) with the moss, then I stick in the sprays and fill up with water, and set in the sunshine, and in a little of kindy names all right, but you have the advantage of me for I know you only as a Calla IAly.

It certainly would be interesting to know why the Sisters chose their pen names, but to tell of mine would savor a little of disappointment, so I guess I'll keep it to myself. "A word to the wise is sufficient."

They are much prettier so than any other way and keep a long time.

I think its wicked to tear up great branches and throw them away, just to get one tiny spray of it.

Do you know it can be called as burden of keeping up the home and bringing up the young daughter alone. A sad and lonely life it must be. Ma: How we love the good old summer time. as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." health before using your medicine. I had falling, inflammation and congestion, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleeping nights, and had neither strength nor four and

energy. There was always a fear and dread in my mind, I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly hear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all is pleasure and happiness in my home."-Mrs. Josie Ham, R.
